Brand Guidelines

Source-of-truth for AI design tools, flyers, and marketing assets

v1.0 · Mini Brand Book · 5 Pages

Brand Overview

SuperConstruct is a construction-technology platform that streamlines project management, payments, and operational workflows for construction professionals. The brand communicates **reliability, efficiency, and enterprise-grade operational strength** while remaining approachable and clear.

Brand Personality

Construction-Tech
Rooted in the construction industry, not generic SaaS

Reliable
Trustworthy, dependable, built to last

Efficient
Streamlined, no-nonsense, time-saving

Operationally Strong
Handles complex workflows with confidence

Enterprise-Ready
Scalable, secure, professional-grade

Clear & Professional
Clean communication, zero ambiguity

Tone of Voice

Writing Style

- Direct and confident — no hedging or filler
- Active voice preferred ("SuperConstruct automates...")
- Industry-aware but jargon-lite
- Short sentences, clear structure
- Outcome-focused ("Get paid faster" not "We offer payment solutions")

Headline Examples

"Automate Your Construction Payments"

"One Platform. Every Project."

"We leverage cutting-edge synergies..."

Visual Identity Summary

The SuperConstruct visual system uses a **bold blue (#445BFB)** primary color paired with clean white space and minimal decoration. The logo combines a cloud icon with a hard hat, symbolizing cloud-based construction management. Typography is set in **Inter** for maximum clarity. The overall look is: clean, professional, with strong contrast and generous whitespace.

Logo Usage Rules

Super Construct

Primary logo — on white/light backgrounds

Super Construct

Inverted logo — on dark backgrounds

Logo Clear Space & Sizing

- **Minimum clear space:** Equal to the height of the hard hat icon on all sides
- **Minimum width:** 120px digital, 30mm print
- **Preferred placement:** Top-left for documents, center for covers/banners
- **File formats:** SVG for digital, PNG @2x for print, transparent background

Logo Don’ts

- ✕ Don't stretch, skew, or rotate the logo
- ✕ Don't place logo on busy photographic backgrounds without overlay
- ✕ Don't change the logo colors (use provided versions only)
- ✕ Don't add drop shadows, outlines, or effects
- ✕ Don't separate the icon from the wordmark

Color Palette

All colors below are extracted from the SuperConstruct website. Use these exact values for brand consistency.

Primary Colors

SuperConstruct Blue
#445BFB
Primary brand color. CTAs, headlines, links, icons, active states.

White
#FFFFFF
Primary background. Cards, content areas, clean space.

Dark Navy
#1A1A2E
Primary text, headings, footer backgrounds.

Secondary & Accent Colors

Action Pink
#CC3366
Secondary accent. Sparingly for highlights, badges, urgency.

Light Blue Tint
#F8F9FF
Section backgrounds, secondary buttons, subtle fills.

Body Text
#333333
Paragraph text, descriptions, secondary content.

Supporting Colors

Muted Gray
#696969
Placeholder text, input labels, subtle UI elements.

Blue Tint Border
#E8EAFF
Card borders, dividers, subtle outlines.

Light Gray
#F5F5F5
Background fills, table alternating rows.

Typography System

CONFIRMED FROM WEBSITE

The following font is confirmed from the SuperConstruct website source code.

Inter Primary typeface for all uses

Type Hierarchy

H1 50px / Bold (700) / Line-height: 1.1 / Tracking: -0.02em
Hero headlines, page titles. Use sparingly — one per page max.

H2 25px / Semibold (600) / Line-height: 1.3 / Tracking: -0.01em
Section headers, feature titles, card headings.

H3 20px / Semibold (600) / Line-height: 1.4
Sub-section titles, feature names, list group labels.

Body 16px / Regular (400) / Line-height: 1.6
Paragraph text, descriptions, feature copy.

Caption 14px / Regular (400) / Line-height: 1.5
Captions, labels, footnotes, metadata.

Image Style Guidance

Photography Style

- Real construction sites, not stock-looking studio shots
- Show professionals actively working (not posing)
- Natural daylight preferred, bright and clear
- Include technology in context: tablets, phones, dashboards on-site
- Diverse workforce representation
- Avoid overly stylized filters or heavy color grading

Illustration & Icons

- Line-style icons, 2px stroke, rounded caps
- Use #445BFB for primary icons, #696969 for secondary
- Flat or minimal 3D style — no skeuomorphic elements
- Construction-themed: hard hats, buildings, tools, cloud icons
- UI screenshots should show real product, not mockups

Do / Don’t Examples

DO

- ✓ Use #445BFB as the dominant brand color
- ✓ Keep backgrounds white or #F8F9FF
- ✓ Use Inter for all text
- ✓ Include the logo on every marketing asset
- ✓ Use generous whitespace (min 40px between sections)
- ✓ Write headlines that focus on outcomes
- ✓ Use 6px border-radius on buttons and cards

DON’T

- ✗ Don't use gradients unless specifically approved
- ✗ Don't use more than 2 colors per asset
- ✗ Don't use decorative or script fonts
- ✗ Don't put text over unmasked photos
- ✗ Don't use generic stock photos of offices
- ✗ Don't use rounded/pill-shaped buttons
- ✗ Don't center-align body paragraphs

Brand-Safe CTA Styling

Primary CTA Button

Get Started Free

- Background: #445BFB | Text: #FFFFFF
- Border-radius: 6px
- Padding: 12px 24px
- Font: Inter Semibold 14-16px
- No shadow, no border
- Hover: darken 8% (#3A4FE0)

Secondary CTA Button

Learn More

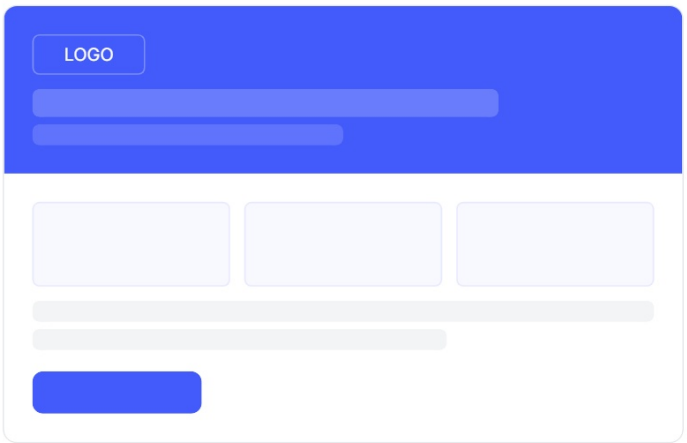
- Background: #F8F9FF | Text: #333333
- Border: 1px solid #E8EAFF
- Border-radius: 6px
- Padding: 12px 24px
- Font: Inter Semibold 14-16px
- Hover: darken background to #EEF0FF

Approved CTA Text

Get Started Free	Book a Demo	Learn More	See Pricing
Start Your Trial	Schedule a Call	View Features	Contact Sales

Layout Guidance for Flyers

Recommended Cover/Banner Structure



Standard flyer layout: Blue header + white content

Layout Rules

Header Zone (Top 25-30%)
Blue (#445BFB) background, white text, logo top-left, headline centered or left-aligned

Content Zone (Middle 50-60%)
White background, feature cards in 2-3 column grid, left-aligned text, icons for bullet points

Action Zone (Bottom 15-20%)
CTA button centered, URL/contact info, social icons if relevant

Key spacing rules: 40px minimum margins, 24px between sections, 16px between elements within sections, 8px between icon and label.

Example Use Cases

Payment Automation Flyer

Highlight automated payment workflows, compliance tracking, and faster payment cycles. Use process flow diagrams.

Product Feature One-Pager

Single feature deep-dive with screenshot, 3 key benefits, and comparison stats. Use the feature card layout.

Construction Workflow Flyer

Show step-by-step workflow automation. Numbered steps with icons, before/after comparison, time savings callout.

AI Flyer Design Rules

When using AI design tools (Midjourney, DALL-E, Figma AI, Canva AI, etc.) to create SuperConstruct marketing assets, follow these rules to maintain brand consistency.

Mandatory Elements

- SuperConstruct logo in header or top-left
- Primary blue (#445BFB) must appear prominently
- At least one clear CTA button
- Inter font (or system sans-serif fallback)
- White or #F8F9FF background
- Minimum 40px margins on all sides

Forbidden Elements

- Clip art or cartoon illustrations
- Neon or fluorescent colors
- More than 3 font sizes per asset
- Decorative borders or ornaments
- Watermarked stock images
- Text over unmasked photographs

A. Quick Brand Rules for AI Design Tools

`color.primary:` #445BFB
`color.secondary:` #CC3366 (sparingly)
`color.background:` #FFFFFF or #F8F9FF
`color.text:` #1A1A2E (headings), #333333 (body)
`color.muted:` #696969
`font:` Inter (all weights)
`border-radius:` 6px (buttons, cards)
`spacing.margin:` 40px minimum
`spacing.section:` 24px between blocks
`logo.placement:` top-left or center-top

B. Sample AI Prompts for Flyer Generation

PROMPT 1 Product Feature Flyer

```
"Design a professional one-page flyer for SuperConstruct, a construction-tech platform. Header: solid #445BFB blue background with white SuperConstruct logo (cloud + hard hat icon) top-left and headline 'Manage Every Project in One Place' in white Inter Bold 36px. Body: white background with 3 feature cards in a row, each with a blue line icon, feature title in Inter Semibold 18px #1A1A2E, and 2-line description in Inter Regular 14px #333333. Feature cards have #F8F9FF background and #E8EAFF border with 6px radius. Footer: centered CTA button 'Start Your Free Trial' in #445BFB with white text, 6px radius. Include website URL superconstruct.io below in #696969 14px. Style: clean, minimal, enterprise-grade. 40px margins. No gradients."
```

PROMPT 2 Construction Workflow Flyer

```
"Create a vertical A4 flyer for SuperConstruct showing a construction workflow automation process. Top section: #445BFB header with white text headline 'From Estimate to Completion — Automated' in Inter Bold 32px. Middle section: white background with 5 numbered workflow steps arranged vertically, connected by a blue (#445BFB) vertical line. Each step has a circular blue icon, step title in Inter Semibold 16px #1A1A2E, and one-line description in Inter Regular 14px #333333. Steps: 1) Create Estimate, 2) Approve Budget, 3) Assign Teams, 4) Track Progress, 5) Process Payment. Right side: 'Save 12+ hours/week' callout in #CC3366 text. Bottom: CTA 'Book a Demo' button in #445BFB, rounded 6px. Clean, professional, no decorations."
```

PROMPT 3 Payment Automation Flyer

```
"Design a professional flyer for SuperConstruct's payment automation feature. Top 30%: solid #445BFB background, white SuperConstruct logo top-left, headline 'Get Paid Faster. Stay Compliant.' in white Inter Bold 34px, subtext 'Automated construction payment processing' in white/80% opacity Inter Regular 16px. Middle 50%: white background, two-column layout. Left column: 3 benefit items with blue checkmark icons — 'Automated Invoice Generation', 'Compliance-Ready Documentation', 'Real-Time Payment Tracking'. Right column: a simplified dashboard mockup showing payment status cards. Each benefit in Inter Semibold 16px #1A1A2E with description in #333333 14px. Bottom 20%: light #F8F9FF strip with centered CTA 'Schedule a Demo' button (#445BFB, white text, 6px radius) and superconstruct.io in #696969. No gradients, no stock photos, 40px margins."
```
